

شركة نيو ايج (ذ.م.م.)
NEW AGE COMPANY (LLC)

Corporate Presentation

March 2018

Complete Turnkey Solutions

- ❖ **Pioneers** in Fire Protection Industry
Operating **since Five Decades**
- ❖ **Class A+ Contractor** approved by
UAE Civil Defence
- ❖ Impeccable Track record:
 - ✓ Over 6,000 Large-Scale Installations
 - ✓ Over 2000 Services Contracts
- ❖ Products approved by **UL, FM, LPCB, British Standards - KiteMark, VdS, Intertek, Telefication**
- ❖ Veteran Technical Team: In-house design facilities
- ❖ Refilling Facilities
- ❖ Large stock holding of equipment for timely delivery
- ❖ Own manufacturing facility :  LISTED Pump available
- ❖ **“Made in UAE”** products:
 - ✓ Fire Fighting Equipment
 - ✓ Fire Suppression Systems
 - ✓ Fire Extinguishers
 - ✓ Fire Rated Doors

NITIN GROUP INTERNATIONAL STRUCTURE

Complete Turnkey Solutions – Fire Protection

Nitin Fire Protection Ind. Ltd.

Global Head Quarters

Nitin Ventures FZE - UAE

Export Division – GCC, Middle East, Africa

East

Pravin Shah
Director Technical

John Sellens
Sales Director - Global

EXPERIENCED SENIOR MANAGEMENT TEAM

- **Education:** Mechanical Engineer
- **Industry expertise:** 40+ years
- **Previous experiences:** Joined the family business (Zenith Fire Services) in 1975, and subsequently trained at BRK Electronics (USA)
- **Founder and driving force** behind Nitin group's expansion

Nitin M. Shah
Chairman & Managing Director

John Sellens
Special Project – Regional Expansion

- **Education:** B.E. Electrical
- **Industry expertise:** 38 years
- **Previous experiences:** MD in UTC Fire and Security based in the UAE, responsible for sales into Russia, Central Europe, Middle East, and Central Asia

K.S. Sobti
Technical Head,

- **Education:** Bachelors in Mechanical and Electrical, Delhi University
- **Industry expertise:** 40+ years

Gunaji Modak
Head of Accounts Dept

- **Education:** Graduate in Commerces
- **Industry expertise:** 7 years

Anthony Dhillon
Head of Commercial Department

- **Education:** Masters in Finance
- **Industry expertise:** 7 years

GROWTH IN UAE

PRODUCT OVERVIEW

Eurosafe Wireless Fire Detection System with Ricochet Mesh Technology

Ricochet enabled wireless devices receive and repeat wireless transmissions from other devices. The size, scalability, range and reliability of the system are extended as wireless signaling, capable of relaying messages to and from even the most remote locations in a building.

Wireless smoke detector

- Optical and heat fire sensing
- 85dB(A) built-in sounder

Carbon Monoxide Sensor

- A built-in 85dB(A) sounder
- Continually monitoring

Fire and Safety Control Panel

- Activates sounders on all devices during an alarm condition
- Facilitates manual call points and additional warning devices
- IP, WiFi, GSM & GPRS signalling

Apollo range of Wired Fire Alarm Detection System

Heat Detector

Optical Smoke Detector

Manual Call Point

Control Panel

Open Area Sounder

PRODUCT OVERVIEW

CLEAN AGENT GASEOUS FIRE SUPPRESSION SYSTEMS

EUROSAFE

INERTECH 01(IG-01) Fire Suppression Systems

IG - 01 (Argon) extinguishing systems are based on the principle of reducing the oxygen concentration inside the protected hazard. Argon quickly and uniformly distribute within the enclosure, achieving design concentration in 60 seconds / 120 seconds.

INERTECH 55 (IG-55) Fire Suppression Systems :

IG - 55 is an inert gas blend consisting of a 50 : 50 mixture of two gases Argon & Nitrogen IG - 55 discharge results in a gas mixture with a density similar to that of air.

INERTECH 100 (IG - 100) Fire Suppression Systems :

IG - 100 (Nitrogen) is a gas which has the capacity to be able to treat a fire hazard in open spaces. IG - 100 is stored in high pressure cylinders in the form of compressed gas. Thus, space required for such cylinder storage depends on pressure and capacity.

PRODUCT OVERVIEW cont..

FIRE PUMPS

- Centrifugal split case fire pump
- Flow from 50 GPM to 3500 GPM
- Pressure from 82 to 261 PSI
- For commercial and industrial use
- Available with diesel engine and electric driven motor
- Jockey pump
- Control panels

FIRE FIGHTING HOSE

- Available in 38mm and 65mm sizes
- UL listed (UL19)

- Quick release
- Screwed hex
- Nunan (Nakajima)

FIRE EXTINGUISHERS

- Powder type
- Epoxy coated cylinder have phosphate (resist corrosion)
- M30X1.5 pressure release valve with CE approval

- Carbon Dioxide type
- External Epoxy paint adds extra protection
- CO2 valve with CE approval

- Water type
- Listed cylinder (CE approval)

EMERGENCY LIGHT SYSTEM

- EUROSAFE . 604 L
- Emergency duration time more than 2 hours

- EUROSAFE . 632 L
- Working voltage AC 120v1277v 60 Hz
- AC power: 6W

FIRE HOSE REEL SWINGING

- EN694 marked, 2W textile reinforced PVC hose
- Working pressure 12bar
- Burst pressure 42bar
- ABS shut-off nozzle with rotary operated jet & spray mode
- LPCB approved

FIRE SPRINKLER SYSTEMS & FLEXIBLE SPRINKLER HOSE

- Seamless pipe
- Metallic sprinkler
- Black or galvanized fire fighting pipes

HIGH PRESSURE WATER MIST SYSTEM

VdS

Minimum Use of Water

- Limited water damage
- Less need for a pre-action system
- An advantage where there is an obligation to catch water
- A reservoir is rarely needed
- Local protection giving you faster fire fighting
- Less downtime due to low fire and water damage
- Reduced risk of losing market shares, as production is quickly up and running again
- Efficient – also for fighting oil fires
- Lower water supply bills or taxes
